Notice of Allowability

PRIMARY EXAMINER
Part of Paper No./Mail Date 08212004

## Examiner's Reasons for Allowance

Examiner has considered Applicant's response dated 05/25/2004 and after further review of Applicant's comments, claims 1 – 27 are in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

"...obtaining a bootstrap file, wherein the bootstrap file comprises a declaration of a component module control object; and a script block comprising a method that accesses the component module control object; obtaining the component module control object, wherein the component module control object comprises one or more resources, installing the component module control object and using the method of the script block to extract a Web page based on the resources of the component module control object .", as best illustrated by figure 2 and in such a manner as recited in independent claims 1, 9,17,25, 26 & 27.

Therefore, all claims, i.e. claims 1-27 are in condition for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
